

MIG BUILDING SYSTEMS

WELCOME HOME

LIFE HAPPENS HERE.

## WELCOME HOME.

At MIG, we go B-I-G. Big solutions, big selection, big savings, big results. We take care of your home from the inside out, adding comfort, beauty and savings to one of your biggest investments. We're certified insulation professionals who have the expertise to offer you peak energy efficiency and save you money in the process. We've also committed to spreading our know-how throughout your home to take good care of you when it comes to gutters, fireplaces, closet organizers and shower doors. We have a BIG range of services, but maintain a personalized, reliable, quality-first approach when it comes to our customers and our workmanship. Call on us for a *FREE ESTIMATE* and allow us to welcome you home to MIG.

## WELCOME TO COMFORT.

A well insulated home is a comfortable home. We know how to help you choose and expertly install the right insulation system for keeping weather out and bringing savings in. From new construction to retrofit to home remodeling, we are a full-service insulation installer. Walls? Attic? Basement? Crawl space? We do it all, and we deal in a wide variety of insulation options to offer the right fit for your project. We partner with top-notch insulation manufacturers like Owens Corning to give you consistent, all-around quality for years to come.

**NEW BUILD** The optimal time to insulate a structure is when it's first taking form. It is an opportunity to seal every nook and cranny in order to achieve the greatest energy efficiency, sound reduction and structural integrity over the life of a home. There are several good options for gaining a maximum level of comfort and peace of mind and we know how to expertly install them all.

**HOME REMODELING** Remodeling is another favorable time to add insulation your home. Whether you're looking to redo a bedroom or a basement, we have the insulation to help you add energy efficiency while beautifying your home. Economical and earth-friendly options allow us to find the right fit for any project.

**RE-INSULATION** We don't just retrofit an existing home for energy efficiency; we re-insulate it. MIG has a thorough, multi-step audit and installation program that completely assesses your home's energy efficiency issues. We remove your underperforming insulation system, conduct an EnergyStar blower door test to identify problem areas, properly seal your home

and then help you determine your best option for a new insulation system. Our most common solutions include Owens Corning loose-fill and batt fiberglass, InsulSmart foam wall insulation and cellulose insulation. Through our re-insulation process we strive to make your exiting home as comfortable and energy-efficient as a newly constructed home.

**FIBERGLASS BATT** Made-to-fit, pre-cut fiberglass batt insulation comes in a variety of sizes and R-Values. It can be used on its own or in conjunction with other insulation solutions for even greater energy efficiency. Batts can be customized to fit your particular walls, floors and ceilings.

**LOOSE FILL** Appropriate for both new build and remodeling projects, loose fill insulation, like Owens Corning's PROPINK blown-in fiberglass system, molds into the shape of your wall cavity with complete compression and gap-free insulation coverage. The product is non-corrosive, non-combustible, easy-to-install, resists moisture build up and mold growth, reduces unwanted noise, does not require wet adhesives and does not settle, rot or deteriorate with age. Cellulose is another cost-efficient loose fill option with proven results.

**OWENS CORNING'S ECOTOUCH** Owens Corning's EcoTouch fiberglass insulation is the greenest option to suit your insulation needs. It is comprised of 99% natural materials with at least 73% recycled content. Traditional Owens Corning efficiency and sound reduction meet innovative PureFiber Technology for an energy saving, money saving, earth saving solution.

**SPRAY FOAM** One of the most versatile products available today, spray foam is seamless, will adhere to most surfaces and is environmentally friendly. It offers superior energy efficiency, sound control and air sealing. It's resistant to mold and mildew and its fluid application makes it a perfect fit every time. MIG carries the top brands in spray foam BASF, Icynene and Dow all offer both closed-cell and open options for your spray foam needs.

ICYENENE

## EXCLUSIVE & GUARANTEED

MIG Building Systems is the only area business that is certified by Owens Corning. That means we are the **only** ones in the area who can offer this combination energy expertise and great warranty:

## WARRANTY

It's backed by Owens Corning and it covers both the **products and the installation, for 10 years – no one else covers that!** When you use MIG you are assured of a job well done for years to come.

## COMFORT

You'll feel comfortable with a name like Owens Corning. Superior insulation products from a leader in the industry that keep your indoor temperatures just right.

## ENERGY SAVINGS

When a MIG certified expert installs the right insulation products, for the right job, you see the savings. Most homes on average see a 20% reduction in their bills.

## TRAINING

We are trained by Owens Corning to install insulation to last, trained to identify any energy loss problems and work to keep indoor climates comfortable in every season.

MIG has certified more Energy Star homes in New York State than any other insulation company and we have been a leader in the program since it was introduced. ## WELCOME TO A MORE BEAUTIFUL HOME.

Home beauty comes in many forms, inside and out. It's amazing what something as simple as a fireplace, shower door or closet organizer can do to add polish to your home. While practical, even a new gutter system can wrap the exterior of your house in a nice fresh outline. MIG delivers quality workmanship in all we do, leaving your home comfortable and beautiful.

**ONE-STOP GUTTER SHOP** From minor repair to full installation, MIG takes care of your gutters. Gutters are an imperative part of keeping your home safe and weatherproofed, but their care and maintenance tends to be forgotten on the back burner. We can add ease to your care and maintenance with a gutter protection system like Gutter Helmet or Screen-Mesh, repair gutter issues or do a complete replacement or new installation with the color of your choice from Englert seamless gutters.

**FEEL THE WARMTH** Upstate New York is the perfect place to add hearth to home and MIG has just the right one for you. We deal in all types of fireplaces and accessories like direct-vent Gas fireplaces, wood burning, vented gas logs, direct-vent inserts as well as mantels and surrounds. We partner with first-rate manufacturers like Heatilator, Golden Blount and Kingsman to give you quality products to match our quality installation. We also offer inspection cleaning and testing services to insure your safety.

**GET ORGANIZED** Everything in your home should have a home of its own. We are pros when it comes to customized organization for every space in your house and can work wonders with master suite closets, kitchen pantries, mudrooms, coat closets, basements, garages or just about any other area. When MIG is finished with your custom closet design and installation project, you'll barely recognize the previously chaotic corners of your home. Our products, from trusted manufacturers like Rubbermaid, range from the truly affordable to the truly exquisite. Make an appointment to visit our showroom or set up a complimentary in-home estimate. We have just the thing to fit both your space and your budget.

**A SPLASH OF STYLE** A customized shower can make for a magnificent focal point in any bathroom. We install both framed and frameless shower doors with numerous glass and hardware options for a fresh look in your home. You'll likely be amazed at the big difference something as simple as a new custom shower can make. Even beyond aesthetic enhancement, we offer innovative ideas like ShowerGuard specialized shower glass, the best way to keep your shower glass clean long after our installers have completed your bath's transformation.

**OUR FAMILY** business has been around since 1975, we have stood the test of time and grown to be Western New York's largest and most experienced building product's installer:
